

HAMA Rechargeable Batteries, 4 x AA

SKU: IT65628

€19.99

Specifications

Technical Specifications

- Type: NiMH AA Mignon (HR6)
- Battery Capacity: 2500 mAh
- Normal Charging: 16 hours at 250 mA maximum
- Rapid Charging: 144 minutes at 1250 mA maximum, with charge monitoring minus delta-U
- Voltage: 1.2 V

General Specifications

- Batteries: 4
- Designed to maintain charging capacity for long periods of storage
- Very low self-discharge, ready to use for weeks
- Extensively tested for charging, discharging, high current, short circuits, lifetime and size
- Environmentally friendly
