- 3 suction modes: Minimum 132 m³/h, Maximum 499 m³/h, Intensive 595 m³/h

- Noise levels: Minimum 42 dB, Maximum 69 dB, Intensive 74 db

Technologies

- Flex Induction: Your hob detects and heats your individual cookware
- Flex cooking zones: Place your cookware in the flexible zones and start cooking, the hob instantly recognises their size, shape and position
- Extendable frying sensor: Constantly monitors the temperature in your pan to prevent your food from burning

Hob General Specifications

- Light Dialog with two-color display (white/red): See directly on the two-color display which cooking zone is heating and which function is being used
- Pot Boost function for all zones: You can boil water faster thanks to the function with 50% more energy compared to the highest average level
- PowerTransfer: When moving a pot to a different cooking zone, this feature transfers all previous settings to the new zone at the touch of a button
- QuickStart function: When switching on, the hob automatically selects the cooking zone with cookware (when placed on a zone whilst the hob is off)
- ReStart function: In case of unintentional switch-off, this feature restores all previous settings by switching on the hob again within 4 seconds
- Automatic zone selection: When enabled, the cooker automatically selects the cooking zone in which you place a new cooking pot
- Alarm function: Audible warning when the time you have set runs out
- Wipe protection function: Allows you to wipe up liquids that have accidentally spilled on the hob (all touch buttons are deactivated for 30 seconds)
- Safety cut out facility: For safety reasons, heating stops after a preset time if not used (possible to customise)
- Home Connect: Remote access and control of the device via a smart app on your smartphone or tablet
- : Direct access to favourite functions with a configurable button
- : Keeps dishes hot at a pre-set low power level
- Safety lock for children
