

RYOBI RSH2545B Electric Shredder 2500W

SKU: IT64058

€195.30

Specifications

Technical Specifications

- Power: 2500W
- Max. Branch Size: 45 mm
- Grinding mechanism: Reversible blades
- Number of cutting blades: 2
- Reversible, hard, steel blades that shred: twigs, bushes, shrubs, stumps and turn them into organic fertilizer
- Blades are sharpened on both sides, allowing them to flip over when one side is dull to take advantage of always clean, quality grit
- Collection capacity: 40L
- Overload protection for added user safety
- Safety piston pushes organic material into the shredder and keeps your fingers

away from the cutting blades

- Built-in handle and large wheels for easy movement around the garden

General Specifications

- Unblocking of branches in case of blockage
- Automatic branch management
- A thermal circuit breaker prevents the engine from overheating in the event of an overload for increased safety and longevity
- Easy shredding of stiff stems, branches from fences or bushes
- Double cutting blades made of high quality, replaceable steel
- For the production of excellent fertilizer
