SKU: IT65271

€89.95

Specifications

Technical Specifications

- Connection: Wireless
- Maximum Operating Range: approximately 30 metres
- Microphone battery playtime: up to 3 hours
- Microphone battery: 2 x AA alkaline (4 AA batteries included)
- Receiver battery playtime: up to 7 hours
- Receiver rechargeable battery: Lithium-ion 3.7V, 1200 mAh
- Receiver charge time: 2-3 hours @5V/1A
- Type of frequency band: UHF
- Frequency response: 65Hz-18kHz
- Channels: 16 UHF channels

General Specifications

- For karaoke speakers and other audio devices
- Ideal for parallel use and any occasion, at parties, events or anywhere else
- The two microphones in the WM60UDB set each support 16 channels in the UHF frequency band: one microphone from 640 MHz to 647.5 MHz, the other from 650 MHz to 657.5 MHz
- The device automatically changes range when it detects interference or another device transmitting on the same frequency: This allows seamless and uninterrupted operation in a variety of conditions
- The body shape and diameter are appropriately designed to ensure a comfortable grip and a way to properly hold the microphone

Dimensions & Weight

- Dimensions (H x W x D): Microphone: 23 x 4.9 x 4.9 cm, Receiver: 2.5 x 5.6 x 12 cm
- Weight: 2 x Microphone ~ 155 g, Receiver ~ 72 g
