

IMPORTANT NOTICE

Congratulations on buying your Roll & Comb power broom. Your machine is covered by a **2 year warranty** and we want you to enjoy for many years to come. Below are a few important terms. If any of these terms are breached your warranty will be cancelled.

1. DO NOT USE ON WET GRASS

Your machine is not suitable for using on wet grass. You should first use the machine on dry grass and you can always wash after you use the machine. Gradually and over time – even very dusty grasses will become clean

2. DO NOT USE ON GRASS WITH RUBBER INFILL

Your machine is not suitable for use on grass that holds rubber infill as the resistance of the rubber infill will wear out the motor and brush. It is perfectly fine to use the machine on silica sand infilled grasses

3. ALWAYS USE THE MACHINE WITHIN RECOMMENDED AREA DIMENSIONS:

- For Roll & Comb 302E max 160m²
- For Roll & Comb 502E max 400m²

4. THE MACHINE IS DESIGNED FOR HOME USE

The machine is not suitable for professional use or for lending it out to friends and family

5. BRUSH HEIGHT ALIGNMENT

Your power broom is height adjustable. We recommend placing the brush as high as possible. The less the brush touches the ground the less you will damage both your grass and the brush. We recommend the following height settings:

For 45mm grass mark 4

For 30mm to 40 mm grass mark 3

For 25mm to 25mm grass mark 2
